

SMITA PRAJAPATI

Application Development Engineer (SDE) — Backend & Microservices

Pune, Maharashtra | +91 8319765034 | smita.prajapati082@gmail.com | [LinkedIn](#) | [GitHub](#) | [LeetCode](#)

SUMMARY

Application Development Engineer with 2+ years building production backend systems in Java/Spring Boot at Deutsche Bank — designing REST APIs and microservices for secure data ingestion and workflow orchestration. Silver Medalist (NIT Raipur, 9.53 CGPA). Open-source Software Engineer with 260+ merged pull requests as a Google Summer of Code 2026 contributor to Checkstyle, building developer tooling (search indexing, AST validation, CI/CD) used by 1,000+ developers. Comfortable owning a feature end-to-end.

TECHNICAL SKILLS

Languages: Java, C/C++, JavaScript, TypeScript, Groovy, SQL, HTML5, CSS3

Backend & Architecture: Spring Boot, Microservices, REST API Design, Build Tooling (Maven), OOP & Design Patterns

Cloud & AI: Google Cloud Platform (GCP), Dialogflow CX, Vertex AI

DevOps & Tooling: Git, GitHub Actions/CI-CD, Jenkins, TeamCity, Docker, Splunk, Maven, Allure

Testing: Selenium, WebdriverIO, Cucumber (BDD), JUnit, End-to-End Regression Automation

Databases: SQL, MySQL, Database Design & Optimization

WORK EXPERIENCE

Senior Analyst | Deutsche Bank, Investment Banking, Pune *Jul 2024 – Present*

- Design and build backend microservices in Java/Spring Boot for secure data ingestion and workflow orchestration, exposing REST APIs consumed by downstream banking applications.
- Implemented a Control-M-integrated microservice powering automated document-AI job execution, removing manual scheduling steps from a production pipeline.
- Built a full-scale regression automation suite from scratch (200+ end-to-end tests), cutting manual QA effort by 80% and improving release reliability.
- Refactored core platform modules for a 50% reduction in code footprint while improving readability and maintainability; awarded the RCP Excellence Award for this work.
- Partnered with cross-functional teams on API contracts, code reviews, and production incident triage.

Technology Analyst Intern | Deutsche Bank Group, Pune *May 2023 – Jul 2023*

- Built a centralized logging service using GWT Logger Utils and Splunk, cutting debugging time by 30% through real-time log analysis.
- Automated regression testing for an internal tool using Allure reporting, improving test efficiency by 25%.

Open Source Software Engineer — Google Summer of Code 2026 | Checkstyle (Apache-hosted static analysis tool, 9k+ GitHub stars) *Jun 2026 – Aug 2026*

- Selected as a GSoC 2026 contributor to build automated documentation tooling for a codebase used by 1,000+ Java developers; delivered 260+ merged pull requests (250+ hours vs. 175 planned) across 3 repositories.
- Engineered an AST-comparison validation framework and 4 new automated test suites that reduced suppressed/skipped test cases by 94% (228 → 10), turning documentation examples into executable regression tests.
- Built a Maven-based SearchIndexGenerator (Java) and client-side search.js engine (2,500+ indexed entries), plus a build-time Doxia macro (TocMacro.java) for in-page TOC navigation across 300+ documentation pages.
- Modernized CI/CD by consolidating 4 workflow jobs into 1 and migrating the link-checker plugin, cutting site-build link-check time from 5–10 minutes to 30–60 seconds.

PROJECTS

API Monitor — Spring Boot Observability Framework ([GitHub](#))

- Built a reusable, zero-config Spring Boot library for automatic REST API monitoring with P95/P99 latency analytics, alerting, and a live dashboard.

FinWise — AI-Powered Voice Assistant ([GitHub](#))

- Engineered a multilingual, voice-activated financial assistant on Google Cloud Dialogflow CX with Vertex AI, enabling real-time voice access to banking information.

EDUCATION

B.Tech, Electronics & Communication Engineering — National Institute of Technology, Raipur

9.53 CGPA · Silver Medalist · 2020 – 2024

ACHIEVEMENTS

- RCP Excellence Award, Deutsche Bank — 50% code reduction & scalable architecture (2025)
- Winner, The Economic Times Campus Star 6.0 — Brightest Engineering Minds (2023) | GCP Certified (Qwiklabs)
- Research Fellow, IISc Bangalore, Indian Academy of Sciences (2022) | Top Participant, DB Global Hackathon 2025 (380 teams)
